

Opening an account for students

As a student you have to deal with all kinds of costs. You have to pay the rent, groceries and of course a drink every once in a while. An account can help you keep track of your finances.

Three steps for opening an account

Step 1: Make an appointment

Opening an account is possible by making an appointment online via ing.nl/english or by scanning the QR-code. If you can't find a time slot at your nearest branch, you can try searching by clicking on the button "show more branches". Also, you can visit one of our Servicepoints.

Please note: once you made an appointment, you will receive the confirmation in Dutch. Pay attention to the confirmed date, time and address of your appointment.

Step 2: What to bring with you

- A valid ID (passport, ID card, official residence document)
- A copy of your registration at a Dutch educational institution (full time study), so called proof of enrolment
- If you are an international student without Dutch ID: an original extract from the Personal Records Database (BRP)
- Your burgerservicenummer (BSN) or, if you don't have one, your Tax Identification Number (TIN). When you register in the BRP you will receive a BSN.

Step 3: Activate your account

To activate your debit card, online banking and the mobile app go to ing.nl/student. Follow the steps and you are all set up!

Important information

Your username for online banking, debit card and the associated PIN will be sent to you by post within five working days. After opening your account, we will send you a request to upload your proof of registration from the Dutch educational establishment where you will be studying.

You can find the nearest Servicepoints below. Please be advised that under certain conditions you will have to apply for a paid account. For information about tariffs and fees please check ing.nl/tarieven (in Dutch).
